## PREAMBLE

---

The ADHA Committee on Policy & Bylaws works to maintain a current and relevant policy manual by collaborating with all committees and other work groups. There is a main policy in each area with supporting policies following. In recent years, efforts were taken to eliminate duplication, thus supporting policies that could be listed under several headings were placed under the most appropriate heading. The policy manual is available to members and non-members alike on [ADHA.org](http://ADHA.org).

---

## HOW TO USE YOUR POLICY MANUAL

---

### KEY

Policy Statements are further identified by a key word (assigned by the Committee on Policy & Bylaws) and even further identified by a number:

- 1st # - Number assigned to the proposed resolution (PR) when it was adopted by the House of Delegates (HOD)
- 2nd # - Year the policy was most recently amended
- 1st # after / - Number assigned to the PR when it was originally adopted
- 2nd # after / - The year the policy was originally adopted
- 3 or more numbers indicate that policies were combined
- Main policies are in bold and the supporting policies are in regular type.

When a policy is amended it retains its original number, but the new number is listed first. Each time it is amended, the new number is listed along with the original number and all interim numbers are dropped. That way, members can identify how long ADHA has had a policy on an issue and how recently the policy was amended.

For example, the following policy was originally PR-10 in the 1992 delegates' manual. A substitute resolution (S) was adopted by the 1992 House of Delegates. An amendment to that policy appeared as PR-6 in the 2010 delegates' manual and was adopted. If the policy had been amended in the interim, the interim numbers would have been dropped and only the number of the original policy and the most recent amendment would appear in the manual:

## HOW TO USE YOUR POLICY MANUAL

---

The American Dental Hygienists Association advocates that the scope of *dental hygiene* practice in all states includes utilization and administration of appropriate pain and anxiety control modalities

### Dental Hygiene Services

6-10/10S-92

To research a policy, a member would begin by referring to a section like Access to Care. Access to Care policies appear in the Ethics, Practice, Public Health and Access sections. One would then refer to each of these sections and choose the statements which one chooses to quote or reference. The member knows how long ADHA has had policy on the issue, how long the current policy has been in effect, and what other policies support the issue.

### **Baccalaureate Degree *Dental Hygiene* Programs**

1. Programs offering a baccalaureate degree should provide an education consistent with standards in higher education. The baccalaureate curriculum should be conducted at a level which allows for admission to university graduate programs. The curriculum should incorporate a substantive body of knowledge in the social, behavioral and biological sciences as prerequisites for entrance into advanced education.
2. Baccalaureate programs conferring the Bachelor of Science degree in *dental hygiene* should provide advanced knowledge and skills in *dental hygiene*. These curricula should prepare graduates for expanded roles in the provision of oral health services. These services shall be determined by projected oral health needs, potential for the *dental hygienist* to provide services to meet these needs and the ability of the *dental hygiene* program to provide instruction in these areas.
3. The curricula should allow for integration of all liberal arts, biomedical sciences, oral health sciences and *dental hygiene* science content and shall provide a theoretical framework for all aspects of *dental hygiene* practice.
4. Baccalaureate degree programs are encouraged to develop four year integrated dental hygiene curricula.

**Curriculum**

**15-88/18-74**

### Master's Degree Dental Hygiene Programs

1. Master's degree programs in *dental hygiene* should be at an educational level equivalent to master's degree programs in other disciplines and allow further pursuit of advanced degrees.
2. Curricula should be designed to provide *dental hygienists* with advanced concepts in social, behavioral and biological sciences and *dental hygiene* practice and education. They should provide graduates with the skills necessary to contribute to the expansion of the *dental hygiene* body of knowledge through research.

### Curriculum

**16-88/19-74**

The American Dental Hygienists' Association supports the initiation of new *dental hygiene* educational programs if:

- the proposed program has conducted a comprehensive *evidence-based needs assessment* to support the development and sustainability of the program. It is further documented that an existing institution of higher education cannot meet these needs.
- there is documented ongoing manpower need that cannot be met by an existing institution of higher education.
- there is a documented ongoing manpower need that cannot be met by *dental hygienists*.
- there is a demonstrated qualified applicant pool.
- the program offers an integrated curriculum that culminates in baccalaureate degree in *dental hygiene*.
- the program has financial resources to initiate and maintain *dental hygiene* educational standards.
- the program is supported by the component and constituent *dental hygienist* associations.
- the program meets appropriate *accreditation* requirements prior to the acceptance of students.

### Curriculum

**4-11/21-88**

---

## EDUCATION/CONTINUING EDUCATION

---

The American Dental Hygienists' Association advocates that the *advanced dental hygiene practitioner* will have completed an advanced graduate level curriculum. This allows for the acquisition of competencies that build upon the fundamental knowledge and skills achieved at the entry level preparing individuals for a level of *evidence-based* clinical decision-making, scope of practice and responsibility required of the advanced practitioner.

**ADHP Curriculum**

**14-15/5-04**

The American Dental Hygienists' Association supports diversity and inclusion in dental hygiene educational programs.

**Diversity and Inclusion**

**6-21**

The American Dental Hygienists' Association advocates that *dental hygiene* educational programs be administered or directed only by educationally qualified actively licensed dental hygienists.

**Faculty/Administrators**

**5-99/34C-73**

The American Dental Hygienists' Association encourages all *dental hygiene* faculty to be members of the American Dental Hygienists' Association.

**Faculty/Administrators**

**13-88**

The American Dental Hygienists' Association endorses the principle that health professionals who are employed for classroom educational activities should have specialized educational professional preparation.

**Faculty/Administrators**

**28-77**

The American Dental Hygienists' Association supports interprofessional education in the dental hygiene curriculum.

**Interprofessional education**

**6-20/5-16**

The American Dental Hygienists' Association advocates collaborative continuing education efforts and exchange of information to promote optimal total health with accredited institutions and other health disciplines that provide continuing education.

**Professional Development**

**11-79/ 8-05/10-78**

The American Dental Hygienists' Association supports specialty certification program opportunities for registered dental hygienists.

**Specialty Certification**

**12-20**

---

## RESEARCH

---

**The American Dental Hygienists' Association advocates the role of *dental hygienists* in research, including their contributions to interdisciplinary studies and practice.**

(Main policy)

**Professional Development**

**3-12/24-70**

The American Dental Hygienists' Association supports basic science and applied research in the investigation of health promotion/disease prevention and theoretical frameworks which form the basis for education and practice. All research efforts should enhance the profession's ability to promote the health and well-being of the public.

**Wellness**

**3-95/18-93**

## PREVENTION AND WELLNESS

---

**The American Dental Hygienists' Association advocates evidence based oral health management strategies for the prevention of oral and systemic diseases. (Main policy)**  
**Prevention** **2S-05/30-75**

The American Dental Hygienists' Association advocates for a tobacco-free environment and supports laws which prohibit the marketing and distribution of nicotine delivery and promotional look-alike products that encourage tobacco use. Further, the American Dental Hygienists' Association supports the role of the *dental hygienist* in prevention and cessation of tobacco usage through education.

**Dental Hygiene Services** **11-14**

The American Dental Hygienists' Association advocates collaboration with organizations to identify, promote and utilize available substance abuse and addiction resources and programs.

**Addiction** **6-07/9-87**

The American Dental Hygienists' Association supports nutritional guidelines and programs that promote total health and encourages media advertising and public education that promote healthy eating habits and wellness.

**Nutrition** **13-94/29-74**

The American Dental Hygienists' Association supports consumer awareness by requiring labeling of all products that have potential adverse effects on oral health.

**Product Labeling** **13S-10/57-82**

The American Dental Hygienists' Association advocates arrangements between school districts and vendors to promote the consumption of healthy foods and beverages.

**Nutrition** **1-12/14-01**

The American Dental Hygienists' Association supports community water fluoridation as a safe and effective method for reducing the incidence of dental caries throughout the human lifespan.

**Prevention** **5-15/58-82**

---

## PREVENTION & WELLNESS

---

The American Dental Hygienists' Association supports education regarding the preventive and therapeutic benefits, safety and cost effectiveness of community water fluoridation.

**Prevention**

**6-15**

The American Dental Hygienists' Association supports education regarding the benefits of all preventive and therapeutic fluorides.

**Prevention**

**7-15**

The American Dental Hygienists' Association supports the dental hygienists' ability to prescribe, administer and dispense all evidence-based preventive and therapeutic fluorides.

**Prevention**

**2-18**

The American Dental Hygienists' Association advocates an oral *assessment* and establishment of a *dental home* for all children soon after the eruption of the first primary tooth or by twelve months of age.

**Prevention**

**4S-12**

The American Dental Hygienists' Association advocates for oral assessments of individuals entering and residing in long term care facilities by a licensed dental professional.

**Prevention**

**8-22**

The American Dental Hygienists' Association supports the need for research and the development of clinical guidelines for the management of individuals who are under the influence of or addicted to controlled substances, recreational drugs, alcohol, or other substances.

**Addiction**

## PUBLIC HEALTH

---

**The American Dental Hygienists' Association affirms its support for *optimal oral health* for all people and is committed to collaborative partnerships and coalitions that improve access to oral health services. (Main policy)**

**Access**

**7S-09/27-74**

The American Dental Hygienists' Association supports the dental hygienists' role in community outreach, care coordination, and the addressing of social determinants of health.

**Access**

**2-21**

**Dental Hygiene Services**

The American Dental Hygienists' Association supports programs that inform stakeholders of the scope of *dental hygiene* practice and its contribution to health in collaboration with health care delivery providers.

**Access**

**16-10/38-82**

**Wellness**

The American Dental Hygienists' Association advocates the development of *evidence-based* comprehensive community oral health programs.

**Public Health Programs**

**17-10/5-98**

The American Dental Hygienists' Association advocates delivery of *evidence-based dental hygiene* services by licensed *dental hygienists* in all settings.

**Public Health**

**18S-10/9-99**

The American Dental Hygienists' Association advocates the inclusion of *dental hygienists* in all aspects of forensic odontology.

**Public Health Programs**

**9-15/4-05**

The American Dental Hygienists' Association advocates for inclusion of oral health as an integral component of a coordinated school health program.

**Public Health Programs**

**13-97/9-63**

The American Dental Hygienists' Association supports use of *dental hygienists* in community-based programs to improve health.

**Public Health Programs**

**10S-95/19-83**

## PUBLIC HEALTH

---

The American Dental Hygienists' Association endorses the expansion of programs that appropriate funding for comprehensive, *evidence-based* oral health care.

**Public Health Programs**

**19-10/32-54-72**

The American Dental Hygienists' Association advocates the use of process and outcome measures in the *evaluation* of oral health programs. This review should include the following:

- 1) utilization of *dental hygienists*
- 2) trends in oral health care delivery
- 3) appropriate standards and administration
- 4) outcomes of care
- 5) cost effectiveness
- 6) *access measures*

**Public Health Programs**

**15-93/7-78**

The American Dental Hygienists' Association supports comprehensive oral health programs and services that reach *at-risk populations*.

**Public Health Programs**

**8-09/25-92**

The American Dental Hygienists' Association encourages health professionals to advocate for legislation, policies, programs, and research to foster reduced consumption of artificially and sugar sweetened beverages (SSBs); to provide education on reducing consumption of artificially and SSBs to all children and their caregivers; and to identify children at risk for obesity or who are obese and provide a referral to a primary care health professional, nutritionist or registered dietitian.

**Sugar Sweetened Beverages**

**3-17**

**Accreditation:**

A formal, voluntary non-governmental process that establishes a minimum set of national standards that promote and assure quality in educational institutions and programs and serves as a mechanism to protect the public.

**Accreditation****7-00****Accredited Dental Hygiene Program:**

A *dental hygiene* program that achieves or exceeds the established minimum standards set by a United States Department of Education (USDOE)-recognized regional accrediting agency and/or the Commission on Dental Accreditation. The curriculum shall be at the appropriate level to enable matriculation into a baccalaureate, masters or doctoral degree program. This entry-level *dental hygiene* program shall:

1. Award a minimum of an associate level degree, the credits of which are transferable to a 4-year institution and applicable toward a baccalaureate degree.
2. Retain control of curricular and clinical components.
3. Include at least two academic years of full-time instruction or its equivalent in academic credits earned at the post-secondary college level.
4. Encompass both liberal arts and *dental hygiene* science course work sufficient to prepare the practitioner to assume licensure in any jurisdiction.

**Accredited Dental Hygiene Program****8-00****Advanced Dental Hygiene Practitioner:**

A dental hygienist who has completed an advanced, graduate level curriculum that allows for the acquisition of competencies that 1) build upon the fundamental knowledge and skills achieved at the entry level and 2) prepares individuals for a level of *evidence-based* clinical decision-making and scope of practice and responsibility required of the advanced practitioner.

**Advanced Dental Hygiene Practice****4-15/1-04**

### **Advanced Practice Dental Hygiene:**

1. Provision of clinical and diagnostic services in addition to those services permitted to an entry level *dental hygienist*, including services that require advanced clinical decision making, judgment and problem solving.
2. Completion of a clinical and academic educational program beyond the first professional degree required for entry level licensure which qualifies the *dental hygienist* to provide advanced practice services and includes preparation to practice in *direct access* settings and collaborative relationships.
3. *Documentation* of proficiency such as professional certification.

### **Advanced Practice Dental Hygiene**

**9-13**

### **Assessment:**

The collection and analysis of systematic and oral health data in order to identify *client\** needs.

### **Dental Hygiene Process of Care**

**SCDHP/18-96**

### **Autonomy:**

See **Professional Autonomy** (page 36)

### **At-Risk Population:**

A community or group of people whose social or physical determinants, environmental factors, or personal behaviors increase their probability of developing disease.

### **At-Risk Population**

**2-11**

### **Care Coordination:**

Care coordination: Patient- centered activity designed to connect the patient, caregivers, care team, providers and specialists to share information and create strategies to meet the needs of the patient.

### **Care Coordination**

**3-21**
